tervening time. I shall give a summary list of relevant mss., adding an asterisk for those lost.

## OLSZTYN

*Archiwum Diecezji Warmińskiej*

My attention was called to this collection (the former Episcopal Archives of Ermland at Frombork or Frauenburg) by Professor Guido Kisch. I am indebted for much information and some photographs to Bishop Jan Oblak.

The mss. of Nicolaus Copernicus, formerly preserved at Frombork, disappeared during the last war.

The archives possess the correspondence of Johannes Dantiscus. It is contained in mss. D 3 to 9, D 67 to 70 and Ab 5.

D 4. Photograph of the table of contents supplied by Dr. Oblak. 131 letters to Joh. Dantiscus, dated 1534-37. The senders include Matthias Held, Lud. Aliphius, Hier. Vietor and Claudius Cantuincula (no. 126, ed. G. Kisch, *Gestalten und Probleme aus*

*Humanismus und Jurisprudenz*, Berlin, 1969, p. 313).

Some of the more interesting letters were published by F. Hipler, "Beiträge zur Geschichte der Renaissance und des Humanismus aus dem Briefwechsel des Johannes Dantiscus", *Zeitschrift für die Geschichte und Alterthumskunde Ermlands* 9, 1887-90 (1891), pp. 470-572. He published letters of Eobanus Hessus, Johannes Campensis, Conr. Goclenius, Lazarus Bonamicus, Gemma Frisius, Joh. Cochlaeus, Joh. Magni archiepiscopus Upsalensis, Vitus Amerbach, Joh. Poliander, Guil. Gnaphaeus, Thomas Cranmer and others. Most of these letters are presumably in the Olsztyn archives. The letter of Lazarus Bonamicus (Hipler, pp. 502-503, no. 23) appears in ms. D 67, no. 160, according to a communication from Dr. Oblak.

## WARSZAWA

*Biblioteka Narodowa (1958)<sup>1</sup>*

Of the main collection, a certain part has been described in printed catalogues: *Katalog rękopisów Biblioteki Narodowej*, 4 vols., Warsaw, 1929-1955. The mss. numbered 1-2666 and described in Vols. 1-3 were all lost during the last war, whereas the mss. numbered 2667-3000 and 7001-7200 and described in Vol. 4 are extant. These mss. are all late. A very large group of mss., which had been taken from Poland to Russia in the eighteenth century and formed

part of the collection of the Public Library in Leningrad, was turned over to Poland between 1923 and 1934 and was kept first in the University Library in Warsaw and later in the National Library. These mss. retained their Leningrad shelf-marks, and a list of them was published in 1928 (*Sigla codicum manuscriptorum qui olim in Bibliotheca publica Leningopolitana exstantes nunc in Bibliotheca universitatis Varsoviensis asservantur*, Cracow, 1928, with a

A small part of the mss. has been preserved, and a list of their shelf-marks was published in 1948: B. Horodyski, *Przegląd Biblioteczny* XVI, 1948, pp. 40-63. These preserved mss. have now received new shelf-marks, which were verified for me by Dr. Bogdan Horodyski and Dr. Andrzej Piber. See now: Biblioteka Narodowa, *Katalog Rękopisów*, Seria II, Tom 2, by B. S. Kupść and K. Muczyńska, Sygn. 3006-3300, *Rękopisy z Biblioteki Żaluskich i Innych Zbiorów Polskich Zwrocone z Leningradu w latach 1923-1924*, Warsaw, 1980. The new accessions after the war are described in a large card file, in four boxes, which I did not go through since most of them are late. There is also a handwritten accession list which begins with no. 6001 acquired in 1950 and arrived at no. 7410 in 1958. These numbers are temporary. For those mss. that have numbers below 6000 and are not yet covered in Vol. 4 of the printed catalogue there is a card file in three boxes. Also these numbers are temporary. The librarians, B. S. Kupść and Mlle. K. Muczyńska, kindly showed me the relevant mss. described below, and also a short list of the older mss. in the main collection of the National Library. In this list I found the following entries:

### Zamoyski Collection

The Zamoyski collection (Bibliotheca Ordinatio-nis Zamoyski), formerly a private collection, now forms part of the Biblioteka Narodowa. Only some of its mss. were described in printed catalogues: R. ## Biblioteka Uniwersytecka (1958)

Of the collection of the former Universitätsbibliothek Breslau, only mss. I F 1-154 and part of 155 are described in a printed catalogue: *Verzeichnis der Handschriften im Deutschen Reich, I: Die Handschriften der Staats- und Universitätsbibliothek Breslau*, vol. I, fasc. 1-2, Leipzig, 1938-39. It has no index. For mss. I F 155-233 see now: *Bibliotheca Universitatis Wratislaviensis, Catalogus manu scriptorum codicum medii aevi latinorum signa 180-260 comprehendens*, by Konstanty K. Jazdzewski (Wrocław, 1982). A few other mss. are mentioned or described in scattered publications. The only complete list is a handwritten inventory (by Friedrich, 1823) entitled: *Catalogus codicum scriptorum qui in Bibliotheca Regia ac Academica Wratislaviensi servantur*. It is subdivided by subjects, and fails to indicate the date of the mss. For a part of the mss. I was able to use fuller descriptions prepared by Professor W. Goeber, to which my attention was called by Mme. Maleczyńska. A number of mss. was lost during the last war. A list of the preserved mss. is given by Aland, pp. 42-43. Many additional mss., not indicated by Aland, were subsequently returned from Russia, and I saw a list of them. An asterisk indicates those mss. which were lost. I am indebted for additional information about many mss. to Professor Antoni Knot, to Mr. Mieczysław Walter, to Mr. Konstanty Jazdzewski, to Dr. Bartłomiej Kuzak, to Dr. Józef Budzyński, to Dr. Adam Skura, and to Dr. Józef Długosz.

### Rehdigeriana

For the collection of the former Stadtbibliothek (Rehdigeriana), there is a printed catalogue of the Greek manuscripts: *Catalogus codicum graecorum qui in Bibliotheca Urbica Vratislaviensi adservantur*, Vratislaviae, 1889, and a printed catalogue of the classical Latin mss.: K. Ziegler, *Catalogus codicum latinorum classicorum qui in Bibliotheca Urbica Vratislaviensi adservantur*, Breslau, 1915. Both of them also cover several mss. that are of interest to us. The bulk of the collection is described in three handwritten volumes entitled *Katalog der Handschriften der Rehdigeriana*. It is continued in another handwritten volume entitled *Verzeichnis der Handschriften der Kirchenbibliothek zu St. Maria Magdalena* (1847) which covers mss. 1001-1581, and for the Codices Bernardiniani (mss. 1582-2000) by a card file in three boxes arranged by shelf-marks. For the letters of the 16th century, see below. This im-

portant collection suffered serious losses during the last war. The preserved mss. are listed by Aland, pp. 37-39. I shall list all relevant mss., adding an asterisk to those which are no longer extant.

### Milich Collection

The greater part of the mss. formerly belonging to the Milich Library in Görlitz was acquired in 1951. It was then divided between the University Library and the Archives (Archiwum Państwowe). Later on, the mss. kept in the Archives were also turned over to the University Library. The mss. were described in a typed list entitled *Wykaz zaakcesjonowanych rękopisów ze zbioru Milicha*. A concordance was kindly supplied by Dr. B. Kuzak. The Milich mss. were at first registered among the accessions of 1951, with serial numbers. Subsequently they were given their original Milich shelf-marks. They were kindly verified for me by Professor A. Knot, Dr. Kocowski and Mr. Jan Ozog. A number of additional Milich manuscripts that were considered lost have been recently reported as extant by Dr. Józef Budzyński and by Dr. Kuzak. I shall list them according to their current shelf-marks, which in most instances correspond to their old Milich shelf-marks, but shall also refer to the accession and inventory numbers. Those that are still missing will be listed with an asterisk. I shall also refer to the following printed lists of Milich mss.: J. G. Geislerus, *Historia Bibliothecae Milichianae* (5 parts, Progr. Goerlitz, 1764-1768); E. E. Struve, *Die italiaenischen und lateinischen Handschriften der Bibliothek des Gymnasiums zu Goerlitz* (Progr. Goerlitz, 1836); *Verzeichniss und Beschreibung einiger Handschriften aus der Bibliothek des Gymnasiums zu Goerlitz*, Erste Fortsetzung (1837), Zweite Fortsetzung (1839); *Beschreibung einiger Handschriften der Milichschen Gymnasialbibliothek* (1841); *Nachricht ueber eine aeltere Handschriften-Bibliothek in Goerlitz* (1846); *Verzeichniss der Handschriften und geschichtlichen Urkunden der Milich'schen (oder Stadt- oder Gymnasial-) Bibliothek in Goerlitz*. Als Anhang zum *Neuen Lausitzischen Magazin*, Band 44 u. folgg. herausgegeben vom Sekretär (1868-69). This last catalogue is the most complete, and gives the latest shelf-marks. It is arranged alphabetically. Cf. *Iter* III, pp. 387-390.

## COIMBRA

### *Biblioteca Geral da Universidade (1952)<sup>1</sup>*

The library has about 3,000 mss., the greater part of which has been described in printed catalogues. The printed *Catálogo de Manuscritos* appeared between 1935 and 1946 in 15 volumes, some of them as supplements to Vols. 12 and 13 of the *Boletim Bibliográfico da Biblioteca da Universidade de Coimbra*. These catalogues cover the mss. from no. 1 to no. 2625, but there remain some gaps (mss. 1834-1930, 2047-2204, 2310-2528 are skipped). Mss. 1-505 are also described in instalments in the *Archivo Bibliográfico* of the library, Vols. 1 (1901)-13 (1913). Mss. 505-555 are also described in instalments in the *Boletim Bibliográfico* of the library, Vols. 1 (1914)-11 (1933-34). For the mss. of classical interest see also A. da Costa Ramalho and J. de Castro Nunes, *Catálogo dos Manuscritos da Biblioteca Geral da Universidade de Coimbra relativos a antiguidade clássica* (1945). For a few philological and theological mss. see F. Stegmüller, *Filosofia e Teologia nas Universidades de Coimbra e Évora*, Coimbra, 1959, pp. 239-258. Most of these printed lists have no indices. There is no handwritten inventory, but there is a large card file in the library which is arranged alphabetically in two sections, one by authors and one by subjects.

### ÉVORA

#### *Biblioteca Pública* (1966)<sup>1</sup>

The bulk of the manuscripts is described in a printed catalogue: J. H. da Cunha Rivara, *Catálogo dos*

*manuscritos da Bibliotheca Pública Eborense*, 4 vols., Lisbon, 1850-71. This catalogue is arranged

<sup>1</sup> The following mss. were examined and eliminated: C VII/2-2. C VIII/2-1. C XVIII/1-2. C XXV/1-23. The following mss. do not exist: C VII/2-21, C XXIV d/1-26.

by subjects, and the last volume has no index. Additional information will be found in the following publications: L. Silveira, *Manuscriptos de filologia latina da Biblioteca Pública e Arquivo Distrital de Évora*, Évora, 1940. M. Gonçalves da Costa, 'Inéditos de Filosofia da Biblioteca de Évora', *A Cidade de Évora* VIII, 1951, nos. 23-24, pp. 7-43; nos. 25-26, pp. 298-397. F. Stegmüller, *Filosofia e Teologia nas Universidades de Coimbra e Évora no século XVI*, Coimbra, 1959, pp. 258-276. The librarian explained to me that the shelf-marks begin with the capital letter C, not with a Roman numeral C (100), and hence I intentionally leave a space after C. This is not evident from the printed catalogues.

The manuscript books, called *Manuscritos da Livraria*, are described in two boxes of index cards, each of them arranged alphabetically. The first is entitled *Manuscritos Próprios*. It lists: Damião de Goes, *Noticiario*. ms. 998-999. The second is entitled *Manuscritos Comuns*, and seems to list only anonymous texts. There is another group of bound index cards entitled *Miscellanea Manuscrita*, also in alphabetical order. They do not seem to contain anything relevant to our project.

### Biblioteca da Ajuda (1952, 1966, 1982)<sup>2</sup>

There is a printed catalogue for the mss. concerning South America: *Faculdade de Letras da Universidade de Coimbra, Instituto de Estudos Brasileiros. Inventário dos Manuscritos da Biblioteca da Ajuda referentes à America do Sul*, by Carlos Alberto Ferreira, Coimbra, 1946. There is a typed volume entitled *Cardozo de Bethencourt, Bibliothèque Ro-*

*yal* (sic) *d'Ajuda, Catalogue des Manuscrits*. Inside: *Bibliothèque Royal* (sic) *d'Ajuda, Catalogue des manuscrits (par matières)*. *Copies des fiches de Cardozo de Bethencourt*. This is a kind of index that gives subject categories and shelf-marks, but no titles for individual mss. It seems to be limited to Portuguese history. There is another ms. volume entitled

<sup>1</sup> The following mss. were examined and eliminated: 78. 1708.

<sup>2</sup> The following mss. were considered and eliminated: 48 XIII 7. 48 XIII 14. 51 II 43. 51 II 59.

*Índice geral dos Manuscritos de Bibliotheca da Coroa, disposto alfabeticamente* (1813). It is arranged by subjects, and alphabetically within each subject. It lists individual mss. with their titles and shelf-marks, but it does not cover all subjects (it omits literature, for example). There is a large card file which is arranged by shelf-marks. It is usually not shown to the public, but I was allowed to sample it. On my second visit, I sampled an alphabetical file in two trays. I was also shown by the director, Dr. Mariana Amélia Machado Santos, a notebook with descriptions of philosophical mss. prepared by her, and by her assistant, Miss Maria de Fatima Sila Pouca dos Santos e Cunha, a handlist of the more important older mss., prepared by her. See also Carlos Alberto Ferreira, "Iluminuras, aguarelas, ornatos e desenhos à pena dos manuscritos da Biblioteca da Ajuda", *Boletim Bibliográfico da Biblioteca da Universidade de Coimbra* 18, 1948, pp. 295-352. In 1982 I was shown by the author a new list of the more important manuscripts, arranged by subjects: Maria da Conceição Geada, *Documentos, Informações e Notícias até 1600. Manuscritos (originais e cópias)*, dated 1978. Some of the manuscripts have recently changed their shelf-marks. Miss Geada gives both the new and the old shelf-marks. There is also a concordance of the old and new shelf-marks which was gone over by my wife, Dr. Edith Kristeller. See now: *Manuscritos da Ajuda, Guia* (2 vols., 1966-1973). This is a summary list, arranged by shelf-marks, but with several gaps.

An older list compiled in 1956 (*Liste des principaux ouvrages de la Bibliothèque du regretté Monsieur C. S. Gulbenkian*) was kindly shown to me by Dr. John Plummer of the Pierpont Morgan Library. ## PORTO

### *Biblioteca Pública Municipal (1966)*

Most of the manuscripts are described in a rare printed catalogue: *Catálogo da Bibliotheca Pública Municipal do Porto, Índice preparatório do Catálogo dos Manuscritos*, 10 fascicules, Porto, 1879-1896. I used a microfilm owned by the Columbia University Library and based on the copy in the British Museum. This catalogue is arranged by subjects and lists 1,183 manuscripts. The valid shelf-marks are not the serial numbers of this catalogue, but the numbers given at the head of the description on the left side. There is a more recent printed catalogue arranged by actual shelf-marks which supplements the earlier catalogue: *Bibliotheca Pública Municipal do Porto, Catálogo dos Manuscritos (Códices N.os 1225 a 1364)*, by A. Cruz, Oporto, 1952. Some of the mss. come from the monastery of Santa Cruz in Coimbra and are described by A. G. da Rocha Madahil, "Os Códices de Santa Cruz de Coimbra", *Boletim Bibliográfico da Biblioteca da Universidade de Coimbra* 8 (1927), pp. 379-420; 9 (1928-30), pp. 352-383; 10 (1932-33), pp. 55-105; 11 (1933-34), pp. 50-96. He indicates the mss. now in Porto but refers to the serial numbers of the printed list, not to the actual shelf-marks.

The Library owns the important Grey Collection to which my attention was first called by the late Professor B. L. Ullman. A good deal has been published on this collection, but no adequate catalogue is available so far. ## BARCELONA

*Archivo Capitular de la Santa Iglesia Catedral Basílica de Barcelona*, also known as *Biblioteca del Cabildo* (1966)<sup>1</sup>

I used a number of descriptions prepared by Ludwig Bertalot and by Eugenio Massa.

A printed list, arranged by subjects, will be found in J. Oliveras Caminal, *El problema de la divisibilidad del continuo con el apéndice 'Codicum in Sanctae Barcinonensis Ecclesiae segregatis asservatorum tabulae'*, Barcelona, 1950, pp. 87-101 (cited below as Oliveras). The same list is also in *Scrinium, Publicación periódica del Archivo y Biblioteca Capitular de la S.I. Catedral de Barcelona*, Fascículo VII, Octubre-Diciembre 1952, pp. 6-16. An older and less complete list exists in a handwritten inventory entitled: *Codicum Capitalaris archivi Barcinonensis sedis Elenchum a ... Canonico P. Jacobo Caresmar labente saeculo XVIII confectum ... anno MCMVII ab Alphonso Ramirez et Moragas ... disponente canonico archivario ... Josepho Garsia* (sic).

Salutatus, declamatio de Lucretia.

Following the suggestion of Professor J. Rubió and Professor P. Bohigas, I checked the inventories and indices of the Royal Chancery for the period of Alfonso IV, *Indices de Jose Llaris*, Tomo XV (Alfonso IV). They yielded some interesting names, some of which I verified in the registers themselves.

*Biblioteca Central (Biblioteca de Catalunya) (1952, 1955)<sup>1</sup>*

A summary list of most mss. is now available in the *Guía de la Biblioteca Central de la Diputación Provincial de Barcelona*, Barcelona, 1959, pp. 53-120. For mss. 1-154 there is a more detailed catalogue: J. Massó Torrents and J. Rubió i Balaguer, "Catàleg dels manuscrits de la Biblioteca de Catalunya", *Butlletí de la Biblioteca de Catalunya* I (1914), pp. 22-29; 49-121; 156-162; II (1915), pp. 107-113; 158-178; III (1916), pp. 93-122; IV (1917), pp. 78-119; V (1918-19, published 1920), pp. 149-185; VI (1920-22), pp. 238-312; VII (1923-27, published 1932), pp. 339-346. In the section "Cronica" of the *Butlletí*, there are short lists of manuscript acquisitions, at first without shelf-marks. The library has a volume in which reprints or cuttings of these lists are combined and the actual shelf-marks, dates and other information have been added in ink. These lists begin with ms. 293 (added shelf-mark), but the numbers are not always in serial or continuous order. Cf. *Butlletí* I (1914), pp. 30-31 (no shelf-marks, but beginning with ms. 293); p. 133 (nos. 343-346); p. 170 (nos. 347-351); II (1915), pp. 118-119 (nos. 352-392); p. 184 (nos. 398-419); III (1916), pp. 143-146 (nos. 421-454); IV (1917), pp. 168-169 (nos. 678-703); V (1918-19, published 1920), pp. 250-252 (nos. 705-754); VI (1920-22), pp. 404-408 (nos. 755-848); VII (1923-27, published 1932), pp. 347-355 (nos. 849-966). These lists are not adequately indexed. The most important acquisitions (nos. 456-677) are listed in *Butlletí* III (1916), pp. 28-57: "La Biblioteca Dalmau: Inventari dels Manuscrits", by Ramón d'Alós (index on pp. 52-57). For acquisitions after 1940, see *Anuario de la Biblioteca Central* 1941 (1942), pp. 45-52; 1944 (1945), p. 48; 1945 (1946), p. 38; 1947 (1948), pp. 47-48; 1948-50 (1955), p. 60. The library has a large card index, arranged by authors and by subjects. I am indebted for much information to Professor Pere Bohigas.

## BURGOS

gical writings in Latin and Spanish by Fr. Petrus Miranda (s.XVII). Cf. Nic. Antonius, *Bibliotheca Hispana Nova* II, 1788, p. 219.

## CÁCERES

### *Biblioteca Pública y Archivo Histórico*

The Librarian, Sr. Gerardo G. Camacho, was good enough to send me a list of the Latin mss. before 1600 (dated 10 April 1954), which includes the following items:

## CÓRDOBA

### *Archivo Catedralicio y Biblioteca del Cabildo (1955)*

*chen Akademie* CXXV, Vienna, 1892, no. 3, pp. 58-61) is incomplete and fails to give the actual shelf-marks. There is now a complete printed catalogue: Antonio García y García, Francisco Cantelar

Rodriguez, and Manuel Nieto Cumplido, *Catálogo de los manuscritos e incunables de la Catedral de Córdoba*, Salamanca, 1976.

### Excerpt

## MADRID

*Biblioteca de la Real Academia de la Historia* (1952, 1973, 1975, 1976)<sup>1</sup>

This rich and complex library consists of several different collections. It has a large alphabetical card

file (fichero) in 11 boxes which is arranged by authors, titles and subjects. I did not go through it.

<sup>1</sup> The following mss. were examined and eliminated: L 55 (12-5-3), now 9/786. 2-1-2, now 9/3946. 9-31-8, now 9/7159. 11-5-1, now 11/8786. 24-4 B 108, now 9/5192. 24-7-B 172, now 9/5258. 24-7-B 173, now 9/5259. 24-7-B 175, now 9/5261. 24-7-B 180, now 9/5266. 27-4-E 111, now 9/5926. 27-6-E, now 9/5968.

The other catalogues and inventories partly overlap, see below. Moreover, most mss. have recently received new shelf-marks. The inventories usually give the old shelf-marks, but there are concordances which lead to the new shelf-marks. The new shelf-mark system is definitely superior to the old one in clarity and consistency, and it also avoids some ambiguities inherent in the old system. I am greatly indebted for much help and information to the former librarian, Sta. Maria Africa Ibarra, and to the new librarian, Sra. Pilar López-Brea Osorio.

#### *San Millán de la Cogolla and San Pedro de Cardeña*

These 77 mss. (65 from San Millán and 12 from San Pedro), most of them old, are completely described in a printed catalogue: C. Pérez Pastor, "Índice por títulos de los códices procedentes de los monasterios de San Millán de la Cogolla y San Pedro de Cardeña, existentes en la Biblioteca de la Real Academia de la Historia", *Boletín de la Real Academia de la Historia* 53, 1908, pp. 469-512; 54, 1909, pp. 5-19. These mss. are now labelled Códices and retain the same numbers. Cf. *Memorial Histórico Español* II, 1851, pp. IX-XIX.

#### Excerpts

cod. 27 (Pérez Pastor, Vol. 53, pp. 489-490). mbr. X. Joh. Chrysostomus, de ieiunio Ninivitarum; de compunctione cordis; de conversione hominis; two letters; de sacramento baptismi; ad Gregorium.

cod. 59 (pp. 504-505). mbr. misc. XV. Gregorius Magnus, dialogus, Spanish by Fr. Gonzalo de Ocaña, made for Fernán Pérez de Guzmán, with a letter from the latter. Augustine, sermons, Spanish, perhaps by the same.

cod. 62 (pp. 506-507). mbr. s. IX (893). Explicatio regulæ S. Benedicti.

In the library copy of the catalogue there are typed additions which go from no. 78 to 120. These are mss. from other collections that have now been added to the Códices. Códice 93 was formerly Cortes 14; códice 97 was Cortes 22; códice 100 was Cortes 25. See below.

#### *Colección Cortes*

The mss. of this group are briefly described in a printed list: "Índice de los Manuscritos que poseyó la Biblioteca de San Isidro y fueron trasladados a la de las Cortes", *Revista de Archivos, Bibliotecas y Museos* 6, 1876, pp. 14-16; 29-32; 69-72; 111-112; 199-200; 214-216; 230-232; 245-248; 262-264; 278-280; 294-296; 310-312. The library has a typed copy of this list which is arranged by serial numbers. The shelf-marks have recently been changed and are added in pencil in the library copy.

overlap and have some gaps, and many of them refer to antiquated shelf-marks. There is a printed catalogue in progress which has arrived at ms. 5699: *Inventario General de Manuscritos de la Biblioteca Nacional*, 10 vols., Madrid, 1953-84. It is arranged by actual shelf-marks and also indicates the older shelf-marks, sometimes more than one. I have decided to include a selection of relevant data also for this part of the collection, basing myself on the *Inventario* and occasionally adding data from other sources. For the remainder of the collection, there are partial printed catalogues. The following catalogues give the actual shelf-marks: (J. Domínguez Bordona, ed.), *Exposición de Códices miniados Españoles* (Madrid, 1929); J. Domínguez Bordona, *Catálogo de los Manuscritos Catalanes de la Biblioteca Nacional* (Madrid, 1931); J. Domínguez Bordona, *Manuscritos con pinturas* (2 vols., Madrid, 1933); Julián Paz, *Catálogo de Manuscritos de América existentes en la Biblioteca Nacional* (Madrid, 1933); Julián Paz, *Catálogo de las Piezas de Teatro que se conservan en el Departamento de Manuscritos de la Biblioteca Nacional* (2nd ed., 2 vols., Madrid, 1934-35; the first edition in one volume, published by A. Paz y Melia in 1899, does not give the shelf-marks and is less complete); M. de la Torre and P. Longás, *Catálogo de Códices Latinos*, Vol. I: *Bíblicos* (Madrid, 1935; no more published); Julián Paz, *Catálogo de "Tomos de Varios"* (Madrid, 1938); J. M. Millás Vallicrosa, *Las Traducciones orientales en los Manuscritos de la Biblioteca Catedral de Toledo* (Madrid, 1942); H. Anglés and J. Subirá, *Catálogo Musical de la Biblioteca Nacional de Madrid* (3 vols., Barcelona, 1946-51); E. Pellegrin, "Manuscripts des auteurs classiques latins de Madrid et du Chapitre de Tolède", *Institut de Recherche et d'Histoire des Textes, Bulletin d'Information* 2, 1953, pp. 7-24; *Miniatures espagnoles et flamandes dans les collections d'Espagne* (exhibition catalogue, Brussels, 1964); Manuel de Castro, *Manuscritos Franciscanos de la Biblioteca Nacional de Madrid* (1973); C. Faulhaber, *Abaco* 4, 1973, pp. 155-299. The following older catalogues contain valuable information but fail to give the shelf-marks now in use: J. Iriarte, *Regiae Bibliothecae Matritensis codices graeci manuscripti* (Madrid, 1769); G. Haenel, *Catalogi librorum manuscriptorum* (Leipzig, 1830), cols. 965-974; H. F. Knust, "Handschriften der Koeniglichen Bibliothek zu Madrid", *Archiv der Gesellschaft fuer aeltere deutsche Geschichtskunde* VIII, 1843, pp. 768-808; B. J. Gallardo, *Ensayo de una biblioteca española* (4 vols., Madrid 1863-89), II, 1866, *Apéndice: Índice de Manuscritos de la Biblioteca Nacional*; G. Loewe and W. von Hartel, "Biblioteca Patrum Latinorum Hispaniensis", *Sitzungsab. Wien* CXII, 1886, pp. 689-737; CXIII, 1886, pp. 47-128; 215-284; J. M. Roca, *Catálogo abreviado de los Manuscritos ... del ... Duque de Osuna* (Madrid, 1882); J. Massó Torrents, *Manuscrits Catalans de la Biblioteca Nacional de Madrid* (Barcelona, 1896); J. M. Octavio de Toledo, *Catálogo de la Librería del Cabildo Toledano* I (Madrid, 1903); P. Roca, *Catálogo de los Manuscritos que pertenecieron a D. Pascual de Gayangos* (Madrid,

1904). Mario Schiff, *La Bibliothèque du Marquis de Santillane (Bibliothèque de l'École des Hautes Études, Sciences Historiques et Philologiques*, 153, Paris, 1905). In the library there are concordances between the old and new shelf-marks and concordances giving the actual shelf-marks for the mss. from Osuna, Toledo and Gayangos. A handwritten alphabetical *Índice*, in 4 vols., is useful but not complete. There is a large handwritten *Inventario topografico nuevo* in many trays, arranged by actual shelf-marks. It had many gaps but they have been filled in recently by the staff of the library. There is also an *Inventario topografico antiguo*, in many trays, arranged by the older shelf-marks. I have been greatly helped, in this as in other Spanish libraries, by the descriptions placed at my disposal by the late Dean P. Lockwood, the late Ludwig Bertalot, and by Professor Eugenio Massa. I am greatly indebted to the librarians of the Biblioteca Nacional for innumerable suggestions and pieces of information, as well as for giving me quick and easy access to all inventories and concordances and to many manuscripts. I am especially indebted to my friends, the late D. José López de Toro and the late D. Ramón Paz, as well as to Luis Vázquez de Parga, the late Federico Navarro Franco, S.ta Amelia Sarriá Rueda and Sr. Manuel Sánchez Mariana. If my material still contains gaps and mistakes, I must blame it on the limited time I had at my disposal. It seems worth mentioning that the present system of shelf-marks (serial numbers) was introduced around 1900, and that the mss. which formerly belonged to the Cathedral Library of Toledo were transferred to Madrid in 1869. A number of mss. listed by Haenel, Gallardo and other older bibliographers cannot be identified and must be considered misplaced or missing. In some cases the concordances offer no new shelf-mark corresponding to the old one, in others the manuscript with the corresponding former shelf-mark does not contain the texts which were assigned to the corresponding former shelf-mark. In some instances I was able to find the manuscripts indicated by the old catalogues, though with different shelf-marks. I shall list the ones that I have been unable to identify, in the hope that other scholars may be more successful in the future.

### Biblioteca de Palacio (1952 and 1955)<sup>1</sup>

The shelf-marks of this collection have been changed several times. There is an old inventory in 8 handwritten volumes (*Indice de los Codices y mss. de la Bibl.ca particular de la Reina N.ra S.ra D.a Isabel 2a*) which was gone through by Bertalot, Lockwood and myself. It gives fairly good descriptions, but it is arranged alphabetically, and it does not give the latest shelf-marks, as a rule, but either the older shelf-marks or none at all. At the time when I began my work there was no concordance between the old and the newer shelf-marks, and to ascertain the latest shelf-mark of a manuscript known only by its older shelf-marks was in each case a serious problem, especially since the older shelf-marks of the type VII F 5 were really class-marks, each of which designated more than one manuscript and at times quite a few. The latest shelf-marks are serial numbers, and hence several new shelf-marks correspond to a single old class-mark. A concordance was begun years ago by Sta. Esmeralda Gijón,

then Assistant Director of the library. The former Director of the library, Sta. Matilde López Serrano, allowed me to go through the old inventory and to see many manuscripts and subsequently helped me with additional information. The situation has been complicated by the fact that in 1954 about 1,000 manuscripts were transferred to the Biblioteca Universitaria in Salamanca. A concordance between the latest shelf-marks of the Biblioteca de Palacio and the new shelf-marks in Salamanca was published by G. Fink-Herrera (*Scriptorium* 13, 1959, pp. 112-118), and a typed concordance was placed at my disposal by the former Director of the Biblioteca Universitaria in Salamanca, Professor Cesar Real de la Riva. More recently, a later Director of the Biblioteca de Palacio, Sta. Justa Moreno, identified for me a large number of the latest shelf-marks for mss. known to me only from the old inventory. This enables me to list all mss. which are still in the Biblioteca de Palacio under their current shelf-marks. The serial num-

<sup>1</sup> The following mss. were considered and eliminated: 589. 1437. 2430. 3508. 3513. 3519-21. 3523-24. 3537.

bers are often preceded by the numeral II to indicate the room in which the manuscripts are kept, but to simplify matters I shall not do this. Additional information was sent by Sra. Consolación Morales, the present Director of the library.

The mss. transferred to Salamanca will be listed under Salamanca. Cf. also J. Domínguez Bordona, *Manuscritos de América (Catálogo de la Biblioteca de Palacio IX)*, Madrid, 1935.

According to the librarian, the printed catalogue by J. ## SALAMANCA

### *Biblioteca Universitaria (1952, 1955)<sup>1</sup>*

The old nucleus is described in a printed catalogue arranged alphabetically: *Catálogo de los libros manuscritos que se conservan en la Biblioteca de la Universidad de Salamanca* ... (by Vicente de la Fuente and Juan Urbina), Madrid, 1855. In the library there is a handwritten volume which corresponds to this catalogue and has the title: *Manuscritos de la Biblioteca Salmantina. Indice de los libros manuscritos que se conservan en la Biblioteca de la Universidad de Salamanca formado en 1855 de orden del Sr. Rector D. Pablo González Huebra* por los Doctores D. Vicente de la Fuente, Catedrático de Derecho Canónico, y D. Juan Urbina, Bibliotecario de la misma. The handwritten index adds the shelf-marks, many further entries and three appendices describing acquisitions made after 1855. See also A. In 1954 about 1,000 manuscripts were transferred from the Biblioteca de Palacio in Madrid to the Biblioteca Universitaria in Salamanca where they received new serial numbers, starting with 1680. For these manuscripts there is in Salamanca a typed concordance of which the former Director of the library, Professor Cesar Real de la Riva, kindly sent me a copy. It is entitled: *Correlación de Manuscritos de la Signatura de la Biblioteca de Palacio a la de la Biblioteca Universitaria de Salamanca*. A similar concordance was published by G. Fink-Herrera (*Scriptorium* 13, 1959, pp. 112-118). It follows the sequence of the serial numbers (last shelf-marks) which the mss. had in the Biblioteca de Palacio before their transfer, and gives for each of them the corresponding serial number now used in Salamanca. Thus in all those cases where the last valid shelf-mark in the Biblioteca de Palacio is known, there is no difficulty in finding the corresponding Salamanca number. However, the shelf-marks of the Biblioteca de Palacio had been changed repeatedly, and the various available catalogues and indices show a number of gaps and discrepancies. Hence the shelf-mark belonging to a manuscript with a certain content must be ascertained from several sources, or preferably verified on the spot. Apart from the manuscripts actually seen by me or other scholars, I have used the following sources: the old inventory of the Biblioteca de Palacio (*Indice de los Códices y mss. de la Bibl. particular de la Reina N.ra S.ra D.a*

*Isabel 2a*, in 8 ms. vols., arranged alphabetically) which gives the fullest descriptions, but never the latest shelf-marks, and which does not comprise all mss.; a preliminary card file kept in Salamanca for the mss. recently acquired from the Biblioteca de Palacio (Fichero, arranged alphabetically). Professor Cesar Real de la Riva, Professor Florencio Marcos, and Dr. Teresa Santander in Salamanca, and S.ta Esmeralda Gijon and S.ta Justa Moreno in the Biblioteca de Palacio, have verified many mss. for me. I have arranged the following excerpts according to the present shelf-mark in Salamanca. A new catalogue of the mss. is in preparation.

In addition to the old inventory, I saw at the Biblioteca de Palacio the following typed volume which seems to describe in some cases additional manuscripts not included in the *Inventario: Relación de los Mss. que procedentes de los Colegios Mayores de Salamanca, se conservan en la Biblioteca Real*. The following mss. are listed only with their old shelf-marks, and it may be presumed that their recent Palacio shelf-marks have not been ascertained but that the mss. are now in Salamanca. I give a list of those mss. which have not yet been verified and hope that they will eventually be identified in Salamanca.

## SEGOVIA

### *Archivo de la Catedral (1955, 1966)<sup>1</sup>*

In 1955 the late Canonigo Archivero, D. Cristino Valverde, kindly showed me the manuscript of the catalogue he was preparing and which at that time described 100 mss. In 1966 the Canonigo Archivero D. Hilario Sanz showed me a handwritten list entitled *Códices microfilmados*, and another list with the heading *Sin catalogar*. The last two lists taken together probably cover most, if not all, the mss., whereas the Valverde list, though not complete, contains fuller descriptions. The mss. are arranged by show-cases (Vitrinas) but have no serial numbers that would serve as individual shelf-marks. For easier identification I have given the serial numbers of Valverde and of the microfilm list, as well as any old numbers which appear in the mss. I have seen. In assigning Vitrinas to individual mss. there are discrepancies between the microfilm list and Valverde, and between the microfilm list and the list *Sin catalogar*. Since in the cases where I saw the mss. the microfilm list turned out to be correct, I have followed it, but have indicated the alternative show-case numbers where there are discrepancies. I assume that the Valverde show-case numbers indicate a former location, and that the list *Sin catalogar* is not always accurate. Cf. G. Beaujouan, "Manuscrits scientifiques médiévaux de la Cathédrale de Segovie". *Actes du XI<sup>e</sup> Congrès International d'Histoire des Sciences* (Warsaw, 1965), Vol. 3 (Wrocław, 1968), pp. 15-18.

## SEO DE URGEL

### *Archivo de la Catedral (1967)*

The collection is best known from the *Breve summarium Antichorum manuscriptorum in Archivo publico Domus Capitularis ... Capituli Sedis Urgelitanae*, compiled in 1660 by frater Guillelmus Costa, preserved in Paris, Bibliothèque Nationale, ms. lat. 18604 and published by R. Beer, "Handschriftenschatze Spaniens", *Sitzungsb. Wien CXXXIX*, 1893, no. 4, pp. 56-70. Not all manuscripts contained in the list are now extant. A typed list which contains only the extant mss. is available both in Seo de Urgel and in the Biblioteca Central, Barcelona: *Relación de códices del Archivo Capitular de la Seo de Urgel que fueren depositados en la Biblioteca de Catalunya durante el periodo 1936-39*. Its serial numbers go from 1995 to 2882, but some numbers are skipped. A new typed catalogue of the mss. is being prepared by the Canonigo Archivero, D. Luis Serdà Prat, who kindly placed this catalogue at my disposal and also supplied me with additional information. This catalogue was not finished in 1967. It gives the valid shelf-marks for the mss. described.

## SEVILLA

*Biblioteca Capitular y Colombina (1952, 1968)*<sup>1</sup>

The manuscripts are divided into two sections, Colombina and Capitular. Both are described in an alphabetical card file. For the Colombina section there is a handwritten volume, arranged alphabetically: *Indice de todos los Códices Manuscritos que se conservan en la Biblioteca de la Santa Patriarcal Yglesia de Sevilla, D.D. Didacus de Galvez direxit, Año de 1780, Rafael Tabares scripsit*. This inventory gives in most instances the actual shelf-marks. Where its entries cannot be confirmed in the modern card file, the manuscript must be considered lost. G. Haenel (Leipzig, 1830), cols. 979-981, who gives only the old shelf-marks, also lists several mss. now missing. For additional information see G. Beaujouan, "Manuscripts scientifiques médiévaux de la Bibliothèque Colombine de Séville", *Actes du X<sup>e</sup> Congrès International d'Histoire des Sciences* (Ithaca, 1962), Vol. 1, Paris, 1964, pp. 631-634; Charles Faulhaber, "Retóricas Clásicas y Medievales en Bibliotecas Castellanas", *Abaco* 4, 1973, pp. 151-300. I am indebted for much help and information to the late Dr. Adele Kibre, to Sr. Francisco Guerrero Laborda, and to the Librarian. Several mss. were called to my attention by Professor Lewis Gordon. The following excerpts have all been verified by the Director of the library, D. Francisco Alvarez Seisdedos, and are rearranged in the order of their shelf-marks. Some data are based on partial microfilms kindly supplied by the Director.

**TOLEDO***Biblioteca del Cabildo, now Archivo y Biblioteca Capitulares* (1952 and 1955)<sup>3</sup>

A substantial number of the manuscripts of this important collection comes from Cardinal Zelada and is thus of Italian provenance. It appears, however, from a catalogue of Zelada's mss., to which Augusto Campana called my attention, that not all of them may have gone to Toledo, cf. Bologna, Biblioteca Universitaria, ms. Battaglini 45. The printed catalogue by Octavio de Toledo describes only a portion of the mss. formerly owned by the Cathedral Library of Toledo. A more complete description of that collection is in the handwritten inventory which, however, is arranged alphabetically by authors and subjects, gives no dates, and lists authors and titles only in Spanish translation. A considerable part of the Toledo mss., including

some that were described by Octavio and some that were not, was transferred during the latter part of the nineteenth century to the Biblioteca Nacional in Madrid. They are marked in the handwritten inventory, and their present shelf-marks appear from a concordance kept at the Biblioteca Nacional. These mss., as far as they are relevant for our purpose, are listed above among the mss. of the Biblioteca Nacional, and their former Toledo shelf-marks are given in parentheses. The list of mss. which have remained in Toledo is arranged according to shelf-marks and based on the following sources:

*Biblioteca Universitaria* (1952)<sup>1</sup>

M. Gutiérrez del Caño, *Catálogo de los Manuscritos existentes en la Biblioteca Universitaria de Valencia*, 3 vols., n.d. (c. 1913-1914). Arranged alphabetically. This catalogue is complete and should always be cited. The shelf-marks used in 1952 have been added in ink in the library copy. See also M. Repullés, *Revista de Archivos* V, 1875, pp. 9-13; 52-55; 68-72; 87-91; 103-105. T. De Marinis, *La Biblioteca Napoletana dei Re d'Aragona*, II, Milan, 1947. This catalogue of the mss. formerly belonging to the Aragon collection in Naples is arranged alphabetically by authors. It lists many Valencia mss. with the shelf-marks then in use and offers a rich documentation. The description of the contents of the mss. is not always sufficient for our purposes. New shelf-marks have been recently adopted. They were kindly communicated to me by the Director, S.ra Maria Pilar Gómez.

I have followed the printed catalogue of Gutiérrez and added the newer shelf-marks from the library copy or from De Marinis, wherever possible; and the actual ones from information sent to me by S.ra Gómez.

This catalogue has no indices. The valid shelf-marks are not the serial numbers of this catalogue, but the numbers given for each manuscript as sign(atura) mod(erna). There is an older catalogue by M. Gutiérrez del Caño, *Códices y Manuscritos que se conservan en la Biblioteca de la Universidad de Valladolid*, Valladolid, 1888. It is arranged alphabetically and gives no shelf-marks. A few mss. are also listed in an exhibition catalogue: *Universidad de Valladolid, Fiesta del Libro. XIV Exposición, Obras de Filósofos Griegos, Romanos y Comentaristas. Manuscritos, Incunables e Impresos. Catálogo*, by S. García López and P. Ortega Lamadrid (1958). ## ZARAGOZA

### *Biblioteca Capitar de la Seo* (1955)<sup>1</sup>

I was shown a card index entitled *Codices* and arranged alphabetically by authors. It covers a group of Greek mss. written around 1580 by Andreas Darmari. Some time after my visit the library lost a sizeable part of its mss., some of which have since turned up in English and American collections. The lost mss. are listed in a printed pamphlet entitled *Manuscriptos incunables raros (1501-1753)*, Zaragoza,

1961, 77 pp. It was shown to me years ago by Mr. Thomas Marston, and again in a xerox copy at the Biblioteca Nacional by D. Luis Vázquez de Parga (shelf-mark pap. foll. 1004). A partial xerox copy was made available to me by Professor Julian Plante. I have added an asterisk to all mss. listed in this pamphlet since they are presumably no longer in Zaragoza. The pamphlet does not explicitly indicate

<sup>1</sup> The following mss. were considered and eliminated: 6-41. 16-9. 19-76. 19-78. 19-88. 43-13.

that the mss. listed in it once belonged to the Biblioteca Capitulare of Zaragoza, nor does it give their shelf-marks. They can be identified only through their descriptions and contents.

For many Darmarius mss. see *Manuscriptos*, pp. 14-16, nos. 72, 73, 75, 76, 78, 81, 82, 84, 86, 88, 92. For a Greek ms. copied for Barth. Laurentii (s.XVI), see *Manuscriptos*, p. 15, no. 85. A summary list of the mss. microfilmed for the Hill Monastic Manuscript Library in Collegeville, Minnesota, was kindly placed at my disposal by Professor Julian G. Plante. It is arranged by shelf-marks. The following excerpts are to a large extent based on this list.

## ZARAGOZA

### *Biblioteca del Seminario Sacerdotal de San Carlos (1975)*

The mss. are described in a printed catalogue: *Manuscriptos e Incunables de la Biblioteca del Real Seminario Sacerdotal de San Carlos de Zaragoza*, Zaragoza, 1943. The catalogue has no index, and its descriptions are not always clear or complete. It follows its own serial numbers, whereas the shelf-marks appear at the end of the external description of each manuscript. These shelf-marks have since been changed, and the new shelf-marks are added in ink in the library copy of the catalogue. The library has many mss. of Italian origin which come for the most part from the bequest of D. Manuel de Roda y Arrieta (1782). I am indebted for much help to the Librarian, D. Manuel Urbez.
